

## Everett - Pacific Hand

### IRG Pacific Hand Therapy - Everett

IRG Pacific Hand Therapy – Everett provides rehabilitation of hand, wrist, forearm and finger injuries for children and adults. We offer splint fabrication, treatment of traumatic hand injuries, wrist and digital fractures, tendon and nerve repair, and repetitive strain injuries. We treat each patient with attentive, individualized care so you can return to work, sport or play as quickly as possible.

Our clinic is located in the heart of downtown Everett. Settled in 1861, Everett is home to a wide range of industries, in a diverse community setting. With affordable housing, waterfront parks and restaurants, scenic mountain views, and historic landmarks, Everett offers a great alternative to the hustle and bustle of larger cities, while still providing the urban amenities that so many enjoy. We're proud to serve our Everett community.
