

## Granite Falls

# IRG Physical Therapy - Granite Falls

At IRG Physical Therapy - Granite Falls, we know what makes Granite Falls so special to us - it's the people. We are a part of this diverse and active community, and we understand how important maintaining a healthy and active lifestyle is around here. Exercise as an integral part of our patients' lives and their overall health - and it's an integral part of our lives as well. That's why we take a balanced approach to treatment, using manual techniques in combination with specific three dimensional exercise and patient education.

Granite Falls is a warm and friendly rural community located in the center of Snohomish County. Often called the "Gateway to the Mountain Loop" because of its close proximity to the beautiful Cascade Mountains, residents here enjoy a wide variety of outdoor activities, including hiking, camping, fishing, and biking. Whether you're spending the afternoon hiking around the beautiful countryside or nestled in a cozy coffee shop on W. Stanley St, Granite Falls has something that appeals to everyone. That's why we're proud to call Granite Falls home.
