

## Eli Wolff

PT, DPT | IRG Physical Therapy - Granite Falls

"There is nothing more rewarding than empowering a patient to reach whatever goal is meaningful regardless of the work required. I will never tell a patient that they simply cannot do something they love no matter what condition they are in currently."

Eli enjoys the outdoors and making the most of each day. He knows firsthand how important it is to educate and empower patients and their families. Together, we can reach whatever goals are meaningful to you.
