

## Maryam Khaniyan

MOTR/L | Everett - Pacific Hand

"My goal is to understand what activities or roles are felt to be most important in my patients' lives and help them get back to performing these activities to resume their roles."

Maryam is originally from Tehran, Iran and moved to US to attend graduate school in 2013. She obtained her Masters degree in Occupational therapy at Tufts University with a focus on hand and upper extremity rehabilitation. When not working, she enjoys spending time with friends, dancing, traveling, and playing music.
