

Sue Dervin

CHT, OTR/L | IRG Physical & Hand Therapy – Anacortes

"An injury or disease process is not just localized to a hand, wrist, or elbow. It affects every aspect of a person's life. It is my goal and passion to assist, support, encourage and instruct my clients, in their healing process, so that they may return to maximum functional levels in all areas of their lives."

Sue Dervin takes full advantage of Northwest living, whether she is hiking, or biking. Sue applies her enthusiasm for healthy living not only to her hobbies, but to her patients' well-being.
