

We offer the following Hand Therapy services:

Desensitization/Sensory Re-education

Desensitization and sensory re-education help patients regain full hand and upper extremity function.

Scar Management

Our therapists help guide the scar tissue healing process.

Manual Hand Therapy

The art and science of one-on-one, hands-on interaction between therapist and patient.

Hand/Upper Extremity Rehabilitation

A positive approach to upper extremity rehabilitation.

Upper Extremity Orthosis Fabrication

Our therapists fabricate custom splints and orthotics to aid healing.

Sports Hand Injury Rehabilitation

Condition your body to achieve optimal levels of performance.

Pediatric Hand Therapy

Young patients are in good hands with our specialists.

Wound Care

Our therapists provide continuous wound assessment and care.
